

evidence to establish a service-connected disability. Undoubtedly, many of our current veterans from past and our present international conflicts stand to benefit a great deal from this bill.

In addition, H.R. 1293, the Disabled Veterans Home Improvement and Structural Alteration Grant Increase Act of 2009, will increase the amount of authorized grants the Department of Veterans Affairs can pay for improvements and structural alterations for homes of veterans with service-connected disabilities of 50 percent or more. Accordingly, this bill will provide much needed assistance for veterans to make any necessary improvements they are otherwise unable to fix on their own. As many may suffer from service-connected physical disabilities impeding their normal life activities, this bill would authorize the VA to increase their financial assistance to veterans. This measure will greatly supplement the bill we passed last Congress, the Homes for Heroes Act, H.R. 3329. Where that bill expanded the supply of permanent housing for veterans, H.R. 1293 will provide the grants to make improvements for veterans' current homes.

Moreover, H.R. 2270, the Veterans Non-profit Research and Education Corporations (NREC) Enhancement Act of 2009 will amend federal provisions regarding the establishment at the Department of Veterans Affairs medical facilities of nonprofit and research and education corporations (NRECs) to allow an NREC to facilitate the conduct of research or education, or both, at more than one VA medical center. This will greatly benefit the VA so that they can have readily available resources to help them confront challenges facing our veterans.

And H.R. 3155, the Caregiver Assistance and Resource Enhancement Act will provide federal assistance to individuals providing non-institutional extended care to disabled veterans. These valuable services include educational and teaching caring techniques; strategies and skills; nursing care, and mental and health services.

And finally, H.R. 1803, the Veterans Business Center Act of 2009 will amend the Small Business Act to direct the Administrator of the Small Business Administration (SBA) to establish within the SBA a Veterans Business Center program to provide entrepreneurial training and counseling to veterans. This will create yet another resource to benefit our returning veterans who may have trouble finding employment.

Madam Speaker, these are incredibly important bills, providing our veterans with the federal resources so they may have efficient access to much needed medical assistance, job, and housing support. As a strong advocate for veterans' rights, I am pleased to add my voice of support for all of these measures. Moreover, I will be working with my colleagues to make sure we continue to provide the necessary resources towards protecting our veterans' rights and ensuring fair and just access to their rightful benefits.

HONORING BRITTANY LEAP'S
FIGHT AGAINST
NEURODEGENERATION WITH
BRAIN IRON ACCUMULATION

HON. GERALD E. CONNOLLY

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

Friday, July 31, 2009

Mr. CONNOLLY of Virginia. Madam Speaker, I rise today to recognize the bravery and fortitude of a very special and courageous constituent of mine, Brittany Leap; and her mother, Sandy, and father, Richard. In February 2006, Brittany was diagnosed with a debilitating and degenerative disorder—Neurodegeneration with Brain Iron Accumulation (NBIA).

NBIA is a very rare and devastating neurological disorder that only gets worse over time—resulting in constant muscle cramping, an inability to control one's body, difficulty with speech, a loss of peripheral vision, and even blindness. No cure or specific means of treatment currently exists for NBIA, and scientists are still baffled by the factors that influence the disease.

Imagine waking up one morning having lost the ability to walk, or talk, or even eat. In Brittany's case, however, this is no dream. This is a very real challenge that Brittany faces every day of her life. To make matters worse, one of the few laboratories dedicated to researching her disease is at risk of having to close its doors because of a lack of funding; doors that upon closing will forfeit the hope of Brittany, her family, and the thousands of other people suffering from NBIA, that a cure may one day be realized.

Brittany is determined to continue fighting this disease and the potentially devastating consequences of what will happen if the research to develop a cure is suspended. She is unwavering in her pursuit to raise the funds necessary to keep hope alive, not only for her, but for everyone else with NBIA. Brittany has taken it upon herself, with the help of her loving parents—and so many others across this great nation—to raise \$250,000 by year's end to keep the search for a cure alive.

Madam Speaker, I ask my colleagues to join me in wishing Brittany and her family and all others with NBIA our heartfelt regards for their efforts to bring an end to this devastating illness, and I ask they give their support in any way possible to help Brittany in her efforts. I am inspired by Brittany's determination and I am honored to bring her story to the floor of this Chamber.
